Annex B

Overview of Alliance initiatives:

Uplift Standards of Process Technicians (PTs) and Engineers

Raise Safety Standards towards Total Workplace Safety and Health (WSH)

Accreditation of PT trade by co-developing professional standards for local companies

Recognition of process safety professionals through the Professional Process Safety Engineer qualification and through accreditation of Specialised Training Courses

Working closely with Institutes of Higher Learning, SkillsFuture Singapore and training providers to accredit bridging and upgrading programmes

Piloting 10 PTs from Shell Bukom and Shell Jurong Island for the Engineering Technician and Incorporated Engineer qualifications with Singapore Polytechnic

Organising talks and customised workshops on WSH-related topics, such as:

- Incident Investigation
- Risk Assessment for a Safe Workplace
- Applying Emotional Intelligence to Create a Safer Workplace

Developing customised courses aligned to the Singapore Institution of Safety Officers Career Progression Pathway framework
